ABOUT

Craig joined Symetri in 2017 as a Solutions Specialist. Working in the building industry since 2002, with experience in Construction, Design, BIM Coordination & BIM Management, projects such as residential, high-rise, hotel and airport projects. Craig has consulted with many clients to bring their workflows and expertise to the highest standard. Craig then moved to a Principle Consultant role, helping clients find solutions to complex issues.

Craig is currently the Client Success Manager at Symetri, and using his experience and expertise, to guide clients to the best strategies and solutions to their project and company needs. Making sure the adoption and utilisation of technology is a success.
